Amendment A

Applicants wish to thank Examiner Nguyen and SPE Coles for the courtesies extended to the undersigned during the telephone interviews regarding the final Office Action mailed October 3, 2006. In the first Office Action dated April 21, 2006, the Office rejected claim 11 under 103 over U.S. Patent No. 6,628,412 to Jeran. However, as noted in the July 20, 2006 response of Applicants, the '412 patent is the parent application of the above-identified continuation application. The above-identified application claims priority to the '412 patent and accordingly the '412 patent is not prior art.

Interview Summary A*

2 NOV 30 2006

Examiner Nguyen agreed with the undersigned during the telephone interview that the rejection of claim 11 over the '412 patent is improper. Examiner Nguyen agreed to submit a supplemental response in view of the erroneous rejection of claim 11 and which will restart the period of response by Applicants.

The Examiner is requested to phone the undersigned if the Examiner believes such would facilitate prosecution of the present application. The undersigned is available for telephone consultation at any time during normal business hours (Pacific Time Zone).

Respectfully submitted,
Paul Jeran et al.
